Without giving too much away, I was rocked by the deaths of David Bowie and Glenn Frey. One after another, my musical muses are dying, and it makes me feel old. Their songs were the soundtrack to my childhood, my adolescence, and then my young adulthood. Now? I am left with their words. And make no mistake, Bowie and Frey were great musicians, but they were also great writers.

I can remember sitting in my bedroom, pouring over liner notes (now I *really* date myself) and reading lyrics over and over again until I had memorized every song on the album in my hands. Those songs were my seminal texts, my Rosetta Stone. They unlocked the lexical puzzle of sentence construction, and with apologies to all of my English teachers, they defined good writing for me. As stripped down and evocative as a poem, as stirring and sublime as any novel, the lyrics to the songs that poured out of my car radio taught me most everything I needed to know about writing and everything else.

Because, imagine no possessions.

A single line from an Eagles song has been echoing in my head ever since January 18: "She came from Providence / the one in Rhode Island." I'm pretty sure that when Frey was sitting in his 5th grade geography class, he wasn't thinking, Someday, I'm gonna use the capital of Rhode Island in a rock song. But he did. That line is also a fine example of paronomasia (punning) and a masterful use of caesura (a break between words in a metrical foot). But more than anything, it's an illustration of the power of a little knowledge. Frey and his writing partner Don Henley had to know a little bit about a lot of different things to write "The Last Resort," which references the settling of America, Manifest Destiny, Protestant missionaries who sailed to Hawaii, and shoddy housing development in California in the '50s. And often it's like that: you never know when you're going to need a little knowledge. To order *bacalao* in Barcelona. To set up a spreadsheet. To do downward dog. Or to write a rock song.

This summer, get a little more knowledgeable with Continuing Ed.

Discovery Camp: Summer Made Smarter

entering K-5

What would happen if a bunch of your kids' favorite teachers got together and decided to put on a summer camp?

You'd get something like our new **Discovery Camp** at **Saugatuck Elementary School**. With morning, afternoon, and full-day options, Discovery Camp is an action-packed, highly enriched, and flexible alternative to regular old day camp.

Sign up for Discovery Camp mornings, then choose an afternoon camp from our à la carte menu of program options. Lunch Bunch is now included in our morning camp, so that's one less thing to worry about. Just pack a peanut-free lunch and some healthy snacks, and we'll take care of wiping sticky fingers and sweet-talking picky eaters.

Sign up for our morning camp, then pick a special afternoon activity from the schedule on the opposite page, and we'll take it from there.

Morning Program / 8:30–12:30 pm Weekly

Our mornings include a daily rotation of everyone's favorite activity blocks: arts & crafts, games, sports, and all kinds of outdoor fun. But we made your children's summer smarter, with literacy, math, and science woven into their days so seamlessly that they won't notice how much they're learning. All they'll notice is how much fun they're having.

Our morning program will include all the usual fun stuff, plus:

Creative Campers

Kids are curious by nature and allowing them to explore and discover new things every day is our camp mission. Each Creative Campers block will feature activities that inspire your child to think and to create. They'll invent, imagine, question, and dream. Arts and crafts, stories, games, and exploration of all kinds are integral components of Creative Campers activities.

Mathletics & Science Explorers

Discover, invent, build, grow, experiment, count, measure—bet you didn't know that math and science could be so fun. In Mathletics & Science Explorers, you'll be a scientist, an engineer, and a designer, as you participate in hands-on, inquiry-based activities: LEGO® architecture, robotics, Scratch programming, space and other ecosystem exploration, bubble-ology, and more.

Kids 'n Play

We believe in letting kids be kids and in the importance of running around and gettin' sweaty and havin' a good time. So we'll let 'em loose on our playground and our fields (and in our gym when it rains). We'll mobilize them, energize them, organize them, and supervise them. Your pint-sized camper is guaranteed to have some out-sized fun. (Too much?—can you really have too much fun with words or movement? We think not.)

Camp Counselors

Our activities counselors are totally overqualified. They're all certified teachers!

Afternoon Programs / 12:30-3:15 pm*

At **Discovery Camp** at **Saugatuck Elementary School**, kids can spend their afternoons concentrating on the activity or hobby they like best. We have afternoon programs for actors and artists, cooks, computer geeks, engineers and inventors, and filmmakers.

If your camper is joining us for the afternoon only, we'll make sure they feel welcome and that they find friends. Our full day campers will be delivered, bellies full and sticky fingers wiped, to the afternoon kick-off, and... off they'll all go!

Below is our week-by-week schedule; please turn the page for descriptions and registration information for all of our Camp Discovery afternoon programs. Sign up for any afternoon program multiple weeks; the activities and projects in each program change weekly. All grade ranges are entering the first grade listed.

*Please check listings on pages 6 & 7; some camps run 12:30-2:30 pm.

All the World's a Stage

entering K–2

Let your imagination run wild in this camp for kids who love to act. You and your fellow campers will bring to life scenes from plays and even write and star in your own. You'll sing songs, play musical games, create scenery and, at the end of our session together, you'll debut a performance of original work for your parents, grandparents, and friends. [Taught by Elizabeth Carstens]

Citizen Invention: Interactive Inventions*

entering 3–5; 12:30–2:30 pm*

Did you know that plants can talk? That your drawings can make music? That the floor beneath your feet can interact with your computer? Curious? So are we! This camp is for inventors and

innovators and designers and dreamers. Learn to use Makey Makey™, an electrical prototyping kit, and create musical bananas, magical game controllers, and animated artworks. We'll turn the classroom into an interactive playroom for you and your friends to explore. [Taught by instructors from Citizen Invention]

602a	Jun 27–Jul 1	\$199
-------------	---------------------	--------------

Citizen Invention: Reinventing Arcade Games & Other Machines* entering 3–5; 12:30–2:30 pm*

Use your imagination to turn cardboard and other craft materials into arcade games and other machines. We'll help you dream it up, design it, and build it with littleBits™, electronic building blocks for kids. Make a pinball machine, a foosball table, a ball toss game, a toy crane, and or something straight from your imagination. Then light it up, make it chirp, keep score, and more! Curtain Call

entering 3–5

Calling all thespians, playwrights, and entertainers of all kinds... We're going to put on a show, and we need you and your magical, theatrical, dramatical mind. You'll write and dramatize plays of your own creation, and together we'll explore script planning, stage readings, prepare costumes and props, create advertisements, and design sets. Get ready to make your debut on Discovery Camp's main stage! [Taught by Marianne Boileau]

Fork, Knife, Spoon Cooking Camp*

entering K–5; 12:30–2:30 pm*

With so many fresh ingredients to choose from, summer is the best time to celebrate and enjoy the art of cooking. Budding chefs will exercise their creativity, participate in team-building activities, read and prepare recipes, improve their math skills and discover the importance of fresh, seasonal, and local ingredients as they explore themed cuisine, like breakfast all day,

Italian, farm to table, Asian, and more. Every afternoon, there's a hands-on cooking related craft, and campers in grades K-2 can enjoy a story that is related to what they have prepared that day.

Non-refundable food and materials fee of \$50 is included.

LEGO® Constructors

entering K–5

Design and build with LEGO®s like never before. In this camp, we'll give you a series of challenges, and you'll experiment, design, build, and test your ideas. We'll apply real-world science, architecture, and math concepts, but mostly, we'll use LEGO®s to build spectacular constructions limited only by your imagination. You'll have a chance to work in teams and on your own, and you'll get to present your creations and ideas to one another. We can't wait to see what you construct! [Taught by Victoria Ferrara]

Mad Science: Brixology*

entering 1–5; 12:30–2:30 pm*

Brixology Camp lays the foundation for our next generation of makers. You'll explore different types of engineering and then team up to construct an engineering-themed project using LEGO® bricks. Learn about aerospace engineering while assembling a space station and explore mechanical engineering as you build a boat. From carnival rides to drawing machines, mechanical animals to truss bridges, future engineers will solve real-world design challenges. Let the tinkering begin!

------------	----------------------	--------------

Mad Science: NASA - Journey into Outer Space*

entering 1–5; 12:30–2:30 pm*

Future space explorers, set your trajectory for the outer reaches of our solar system. This program brings you closer to the stars, planets, comets, and more. Live the life of an astronaut as you experiment with technology designed for outer space. Learn to read a star chart and see how constellations change when you travel across the galaxy. Build your own Skyblazer Rocket, race a balloon rocket and more! Blast off with our Mad Science rocket launch. Camp includes NASA-approved daily take-homes.

923	Jul 18–Jul 22	\$199
------------	----------------------	--------------

Magic Club*

entering K–5; 12:30–2:30 pm*

We can't teach you to make your little sister disappear—that wouldn't be right!—but we *can* reveal the secrets of the professional magician in this critically acclaimed program. Experience the wonder of magic as you learn the ancient art of prestidigitation. Improve your presentation, public speaking, and leadership skills, build self-confidence and poise, and develop stage presence. Plus, disappearing coins! Magic scarves! Card tricks! We promise a truly magical experience. **Non-refundable materials fee of \$10 per camp day included.** [Taught by Nisan Eventoff]

Led by local educators, Camp Invention is a high quality STEM experience with a focus on creative problem solving and teamwork—life skills that are essential for success in the 21st century. Campers will turn the ordinary into extraordinary as they tackle real-world problems in a series of activity modules. Sign up for one or both weeks; bring a nut free snack and lunch. **For more information, including discount and refund policies, and to register, call Camp Invention at (800) 968-4332 or visit www.campinvention.org.**

EPIC

CrickoBot™ Make your very own robotic cricket powered by the sun. Create cricket-inspired inventions and outsmart motorized spider predators, build cricket-sized tire swings and trampolines, and explore the science of sound by investigating how crickets chirp.

Epic Park™ Zip lines, water flumes, and tree houses, oh my! You're in charge of designing Epic Park, located on an ecologically diverse island, complete with waterfalls, cliffs, rain forests, and deserts. Draw up a blueprint, build prototypes and models, then pitch your proposal to investors and compete for the chance to be co-owner of the world's greatest adventure park.

I Can Invent: Maker Studio™ Explore the science of 3D printing and get your gears moving in a new direction as you prepare to make the Next Big Thing. Test your inventor's skills: can you reverse engineer a broken appliance and redesign it in the Maker Studio to be bigger, better, faster, stronger?

The Lab: Where Pigs Fly™ Anything is possible in The Lab. Be a scientist, a programmer, or a biologist as you test out more than a dozen experiments. Every day brings a new challenge, from demolition and cup tower explosions, to programming and coding, to the chemistry of polymer slime and spinning disco ball circuits.

Camp Invention Games™ Practice teamwork and cooperation, develop coordination, and learn to overcome obstacles during this module of traditional games modified with 21st century kids in mind. Winning and losing take a back seat to creative problem solving, strategic thinking, and collaboration, and everyone has fun.

All-Stars Sports & Fitness Camp

entering 6-9

For graduates of our Sports & Fun Camp and other athletes from all over the area, this camp draws upon sports, fitness, and health concepts to create an environment that encourages hustle, inspires achievement, and promotes healthy living. This multi-sports program is designed to build self-esteem, improve overall athleticism, promote positive sportsmanship, and allow campers to have fun in a safe environment. Under the guidance of certified physical education teachers, coaches, and young high school and college athletes, campers will learn safe and proper exercise techniques, participate in a wide variety of their favorite sports activities, and try new activities for the first time. If you're interested in sports and games, we promise you'll feel right at home.

Camp will have access to the 30,000 square foot fieldhouse, including an indoor track and an 8,000 square foot gymnasium, as well as the turf and grass fields at **Staples High School**. Everyone should bring a peanut-free snack; full-day campers should bring a peanut-free lunch. Camp runs rain or shine.

Instructors include Christopher Scholz (CES), Jonathan Feagin (BMS), and Kristin Ryan (BMS).

Performances July 14, 15 & 16 at 7:00 pm
July 16 at 2:00 pm

Gray skies are gonna clear up, so put on a happy face, and join us for this summer’s production, *Bye Bye Birdie*. A comedic musical about the hijinks surrounding a teen idol’s induction into the army, *Bye Bye Birdie* boasts some of Broadway’s most memorable songs, “Put on a Happy Face” among them. With roles for the rock and roll superstar of the title, his manager, a long-suffering girlfriend, two put-upon parents and their star-struck daughter, plus a town’s worth of teenagers, all of whom are slightly unhinged at the prospect of a visit from the Elvisesque Conrad Birdie, *Bye Bye Birdie* promises to provide fantastic opportunities for our actors and lots of laughs for our audience.

Auditions / Bedford Middle School Auditorium

Auditions will be held on Thursday, June 9, from 3:30–5:30 pm; callbacks as needed on Friday, June 10, from 3:30–5:30 pm.

Please note: audition only if you will accept any role assigned. Everyone who auditions will be cast in the play. **Program must be paid in full before auditioning; no refunds or credits will be issued after May 27.**

Comedy Improv Workshop

A long-running and beloved tradition, the Comedy Improv Workshop offers students the opportunity to try some unscripted drama. First, we’ll learn the basics—saying “yes and...”, active listening, being present, using what you’ve got—and then we’ll try them out. It’s a little bit acting class, a little bit comedy school, and a whole lotta giggles. The workshop will culminate in a performance.

Triple Threat Academy for Performing Artists Theater Camp

entering 9–graduating seniors / students entering 9th or 10th grade
may participate in both WSTTC and Triple Threat Academy Camp

Co-Directors Cynthia Gibb & Christopher Myers

Choreographer Rachel Maclsaac

Performances July 28, 29 & 30 at 7:00 pm
July 30 at 2:00 pm

Join Triple Threat Academy for Performing Artists for the Tony-nominated, pop/rock musical *Footloose*, by Dean Pitchford and Tom Snow. Adapted from the explosive film, this musical includes an Oscar- and Tony-nominated score. *Footloose* explores contemporary social themes and celebrates the wisdom of young people and the power of music to move hearts, minds, and feet. Its soundtrack album reached number one on the Billboard charts and sold over 15 million copies. Cynthia Gibb (*Fame*, *Gypsy*, *The Karen Carpenter Story*) and Christopher Myers (*Mamma Mia!*, *Footloose*, *Les Miserables*) will co-direct, and Rachel Maclsaac (*Mamma Mia!*, *A Chorus Line*, *West Side Story*) will choreograph.

Located at Coleytown Middle School, Triple Threat Academy's summer theater camp is designed to provide young actors, singers, and dancers with a fun, creative, and non-competitive environment in which to hone their crafts. With over 17 roles (many will be double cast), plus nearly 20 musical numbers, there will be plenty of stage time for our campers. When not in rehearsal, students will participate in workshops focusing on technique in all three disciplines, acting, singing, and dance.

Auditions / Coleytown Middle School Auditorium

Auditions will be held on Thursday, June 23, from 10:00 am–4:00 pm; callbacks will be on Friday, June 24, from 2:00 pm–5:00 pm. All campers will be included in the production; no audition necessary to enroll. Once registered, students may audition for specific roles; students should be prepared to accept any role they receive. **Program must be paid in full before auditioning; no refunds or credits will be issued after June 10.**

Please note: campers cast in roles must plan to attend camp daily; no exceptions. During the weeks of July 18 and 25, campers must be available for extra rehearsals in the afternoons or evenings.

5-week program, including auditions, rehearsals, performances & t-shirt / \$650

Performance DVDs will be available for \$40 each.

Filmmakers Ink + CreativeArt Ink Camps

entering grades 3–5, 6–8 & 9–12

Filmmakers Ink offers a university film school experience in a summer camp setting. Guided by a staff of film professionals, our young filmmakers learn by doing as they develop the key creative and technical skills required for exceptional filmmaking. Our programs give students tools with which to access, express, and develop their creative ideas, and invaluable knowledge in media content creation.

Under the leadership of award-winning filmmaker Patrick McCullough, Filmmakers Ink provides young filmmakers with the skill and confidence to be a part of a growing creative community. For more details, visit www.filmmakers-ink.com or www.creativeartink.com, email patrick@filmmakers-ink.com, or call (413) 320-6071. Enrollment is limited; please register early.

All Filmmakers Ink and CreativeArt Ink camps are located at Staples High School.

Intensive Filmmaking I

entering 6–8, 9–12

This program is for those with an interest in or passion for film and are ready to learn to make consistently good movies. Professional filmmakers will help each young filmmaker experience the moviemaking process, from script writing through pre-production and filming. Everyone will develop scripts, use professional filmmaking equipment, and work in each of the main crew positions, including director, 1st assistant director, director of photography, gaffer (lighting), and boom operator (sound).

2 weeks / Jul 11–Jul 22 / \$595

128a	entering 6–8	Mon–Fri	9:00 am–12:00 pm
128b	entering 9–12	Mon–Fri	12:30–3:30 pm

Intensive Filmmaking II

entering 8–12

This program is for filmmakers and actors returning to Filmmakers Ink or those with similar intensive film experience. Working with film professionals, young filmmakers will build on the knowledge gained during previous productions. They'll develop scripts with more complex stories and visual elements, and there will be more time to choreograph increasingly intricate camera shots and direct stronger acting performances. Finished films may be entered into student film festivals. Please note: if new to Filmmakers Ink, enrollment in the Screenwriting Program or permission from Patrick McCullough is required. Bring a peanut-free lunch and healthy snacks.

Special FX Filmmaking

entering 3-5

Learn by doing with guidance from Filmmakers Ink instructors, who will help you develop an idea for a film. Then you'll write, produce, shoot, direct, and edit a 5-7 minute movie using digital video cameras, Special FX, and editing equipment. Screen a rough cut of your movie for family and friends at your premiere on the final day of film camp. Students are encouraged to bring their own video camera if they already own one, recording media (tape or drive), and tripod for practice instruction.

Introduction to Woodworking

entering 7-12

Work with Staples tech ed teacher Michael Sansur to design and build your own unique masterpiece. This is the perfect opportunity to learn new or enhance your existing woodworking skills. School's out and the class is small; you'll get hands-on instruction in the use of our fully equipped shop tools and machines. And you'll have plenty of time to advance to detailed machine work, like turning a pen on a lathe. This course is open to new students, as well as those who have had Mr. Sansur in the past and who want to complete a more advanced project. Class is limited to 10. **Non-refundable materials fee of \$35 included.**

Summer Jazz Boot Camp

entering 7–12; students must have studied music for at least 3 years, be able to read music written for their chosen instrument (either saxophone, trumpet, trombone, piano, guitar, bass, or drum set), and be able to play a concert Bb chromatic scale, in quarter notes, by memory; drum set students must be able to keep time and read written music in 3 rhythmic styles: swing, Latin, and funk-rock.

School's out for summer, the band room is locked up, but you still want to keep playing. Our new, one-week, intensive immersion in the study of performing jazz music is intended for students who are interested in developing their jazz performance skills. We'll cover traditional jazz melodies, harmonic progressions, performance styles, jazz theory, and basic improvisation. Students will perform in both small and large ensemble settings with the goal of presenting a culminating concert performance at the end of the week. Individualized and group instruction will be offered. Join us and explore one of America's greatest art forms.

1 week / Jun 27–Jul 1 / \$325 / BMS

99 Mon–Fri 9:00 am–12:00 pm

Gregg Winters has been teaching instrumental music in the Westport Public School system since 1992. He is an adjunct professor of music at Western Connecticut State University and has been a co-chair for the Western Region Middle School Jazz Ensemble since 1995. Mr. Winters' goal is to make the Summer Jazz Boot Camp an annual gathering of Fairfield County's greatest young jazz musicians.

Animation, Video Games & More

entering 5 & up

Calling all cartoon aficionados, animators, and video game enthusiasts! This summer, create original interactive animations, learn computer coding, and build super cool interactive games. Bring your creations to life with digital audio software and compose and record your own music soundtracks and voiceovers with special effects. Your multimedia projects will dazzle your family and friends, and who knows? Your animation might turn out to be the next great Cartoon Network series.

Westport AllStars Basketball Clinic

entering 3–8; girls & boys

Basketball never stops; neither should you. Get in the game and learn to play the right way with one of the area's top youth coaches, Chris Fay, a.k.a. the Shot Doctor. His AllStars Basketball camps drill down on fundamental skills and shooting, combining player development with competition to insure maximum results for your child. This summer's professional coaches may include Staples' girls basketball coach Charles Miller and Fairfield Prep's boys varsity coach Eric Sobelman. Expand your game, rise to the next level, and let Coach Fay help you realize your hoop dreams, one shot at a time. Bring a ball, water, and a peanut-free snack.

Basic Grammar & Writing:

Everything You Wanted to Know But Were Afraid to Ask
entering grades 9–12

Designed for students who want or need a review, this course will cover punctuation and grammar fundamentals and help students improve written fluency, clarity, and power. Topics may include but are not limited to: parts of speech and their functions; punctuation and its uses; pronoun-antecedent and subject-verb

agreement; building sentence variety and using parallel structure; and common errors like fragments, run-ons, comma splices, and dangling modifiers. For those who have taken or are planning to take the SAT or ACT, we'll review and refresh in preparation for those tests.

College Essay Boot Camp

entering 12

First, don't panic. It's just 650 words. And even though it feels like the most important essay you will ever write, it's really just a story. A story that you can tell, because it's about you. We'll help you find it, draft it, and polish it. We'll brainstorm ideas, discuss the dos and don'ts of college essays (*don't* be afraid to try out ideas; *do* be yourself), and then we'll write. Because there's no getting around that part; our instructors do not write essays—they're here to point you in the right direction, support your choices, and make sure that, by Friday, every last comma is in place. This boot camp doesn't guarantee admission into any college, but we do guarantee that you'll leave with a compelling essay and that the process will be significantly less painful than you anticipated. Students should bring their laptop or a flash drive to save work on. Limited enrollment. [Taught by Ali Antunovich (307a, 307b, 307d, 307g); Mary Katherine Hinman (307c, 307e); Amanda Morgan (307f)]

Memoir: Write Your Life entering 9-12

"To write one's life is to live it twice."—Patricia Hampl

When we write memoirs we allow ourselves to process and reflect on the meaning of our life's events, and when we invite an audience to read those memoirs, we invite empathy for our shared human experience. That kind of community can be moving, provocative, humorous, and insightful. We learn about each other through this genre, but we also learn about ourselves as we relive these valuable moments in our lives with the perspective of hindsight. Join us and write *your* life.

Mini Moody's Project: Inquiry, Research & Modeling in Mathematics & Science entering 9-12; must have completed Algebra 2

How do mathematicians and scientists apply mathematics to solve real-world problems? What makes a good mathematical model? Which variables are included, which are ignored, and why? Mathematical models have evolved through history and have shaped the world we live in. Join us to explore the how

and the why of mathematical models. Students will eventually create and present a mathematical model designed to solve a real-world problem. If you're interested in applied mathematics, science, and competitions like Moody's Mega Math challenge, you'll find this camp presents exciting new challenges to conquer.

Behind-the-Wheel Instruction / \$440

Learner's permit required

Driving hours (8) are scheduled by appointment at mutually agreeable times, after school and/or on weekends. Student-to-teacher ratio is 1-to-1. Begin the driving instruction well in advance of the testing date. You can begin BTW instruction after you have started your 30 hours of classroom instruction. Lessons may be scheduled in 1-, 1½-, or 2-hour increments. Instruction includes local driving in commercial and residential areas and parking skills. Vehicles are dual-brake controlled. Additional hours of practice driving with a parent are required by the State of Connecticut to total 40 hours of instruction. For students who have completed the 30-hour Driver & Traffic Safety Education course, the learner's permit must be in effect for at least 120 days (180 days otherwise) before the student can take the road test to obtain a driver's license. Contact your insurance company to determine if you will get a discount for completing BTW instruction. **Payments for BTW can be made in two installments. Please note: To cancel a lesson, the student is responsible for contacting the instructor at least one day in advance. Failure to do so will result in the student being charged for the lesson.**

Arts + Crafts

All Sewn Up

New to sewing, have just a little experience, or simply forgotten how? Learn—or relearn—how to pin, cut material, lay out and use a pattern, thread your machine, sew a perfect seam, and other basics. Then we'll cover more advanced skills, including how to put in zippers, use Velcro for closures, make a pillow with cording, grade around curved seams, sew buttonholes, hem, and more. Please bring your own sewing machine, cloth, and notions. A list of required materials and local sources will be emailed prior to the start of classes.

6 Wednesdays Jun 29–Aug 3
7:00–9:00 pm SHS

Barbara Hayden, a lifelong resident of Westport, worked for many years as a special education teacher in Stamford. She has taught sewing in adult education programs for over seven years. When she's not sewing, she cans and makes jam, two other skills her Midwestern mother taught her.

DSLR: Basic Digital Camera Operation

Learn to use your camera so your images are properly exposed, sharply focused, and compositionally balanced. This class will cover all the basics: camera operation, the use of flashes and tripods, film speeds and quality settings, white light and color balancing, composition as it relates to the photographic masters and painters of the past, lighting as it relates to portraiture and still life, and tips on photographing kids, families, pets, flowers, and other things both stationary and in motion. Instruction will emphasize the basics, but the class will allow for individual creativity. Bring your camera and manual.

6 Wednesdays Jun 29–Aug 3
7:00–9:00 pm SHS

John Zappala received a degree in graphic design from Farmingdale State University and a BFA from St. John's University. He has practiced and exhibited advertising, fashion, and corporate photography for over 25 years.

Jewelry Making

This structured introductory course will take you from design to finished piece. Along the way, you'll learn about soldering, wiring, buffing, and more. You'll use those new skills to create pendants, earrings, brooches, and necklaces, and you'll work with various wires, metals, semi-precious stones, and beads. A non-refundable materials fee of \$20 is included; additional fees may apply when using more expensive materials.

455 **\$189**
7 Wednesdays Jun 22–Aug 3
6:45–9:15 pm SHS

Susan Bishop has been teaching local residents to craft beautiful jewelry for seven years.

Open Studio with Steve Parton

In this 6-week open studio class, beginning and intermediate students who want to learn the techniques and procedures necessary for painting in acrylics will receive basic instruction. Fundamental skills in drawing, composition, mixing and applying paint will be demonstrated. Subject matter will include still life, portrait and landscape. You will be guided through the basic steps towards a satisfying work of art. More advanced students are encouraged to work on their own projects, with as much or as little input from the instructor as they desire. Materials list available in the office and on our website.

Pottery

Get your hands dirty this summer in this pottery class for beginner and intermediate students. Join potter and teacher Cassie Bourgeois in our professionally equipped studio, as she guides you through the process of creation. You'll learn how to hand build, how to center on the wheel, and how to use associated tools and materials. Imagine the projects you could do: mugs,

pots, plates, bowls. Keep in mind that not only your hands will get dirty; working with clay is messy, so please dress appropriately. Your creations will be fired and ready for pick-up after the last class. **Non-refundable materials fee of \$35 included.**

850 **\$199**
 5 Wednesdays Jun 22–Jul 20
 6:45–9:00 pm SHS

Cassie Bourgeois is an experienced potter versed in wheel-thrown and hand-built pottery. She currently teaches elementary and middle school art in Norwalk. In her free time, she likes to sneak away and create her own pieces on the kick wheel she stores in her garage.

Show Me Your HeART: Mixed Media Adventures

Using eclectic materials, unique insights, messy fun, and guided prompts, this class will inspire you to draw on creativity as a means of personal expression and to make beautiful, personal art. You'll discover what being in the "flow" feels like and how freeing it can be to use art to navigate through life's difficult detours. Learn to embrace the beauty of your mistakes, negotiate the curves that all artists come across in their work, utilize a range of materials, and deploy innovative strategies for conquering a blank page or empty canvas.

One Last Thought

"The Last Resort"

written by Glenn Frey & Don Henley
Hotel California, 1976

**She came from Providence, the one in Rhode Island
Where the old world shadows hang heavy in the air
She packed her hopes and dreams like a refugee
Just as her father came across the sea**

**She heard about a place people were smilin'
They spoke about the red man's way, how they loved the land
And they came from everywhere to the Great Divide
Seeking a place to stand or a place to hide**

**Down in the crowded bars out for a good time
Can't wait to tell you all what it's like up there
And they called it paradise, I don't know why
Somebody laid the mountains low while the town got high**

**Then the chilly winds blew down across the desert
Through the canyons of the coast to the Malibu
Where the pretty people play hungry for power
To light their neon way and give them things to do**

**Some rich man came and raped the land, nobody caught 'em,
Put up a bunch of ugly boxes and, Jesus, people bought 'em
And they called it paradise, the place to be,
They watched the hazy sun sinking in the sea**

**You can leave it all behind and sail to Lahaina
Just like the missionaries did so many years ago
They even brought a neon sign 'Jesus Is Coming'
Brought the white man's burden down, brought the white man's reign**

**Who will provide the grand design, what is yours and what is mine?
'Cause there is no more new frontier, we have got to make it here
We satisfy our endless needs and justify our bloody deeds
In the name of destiny and in the name of God**

**And you can see them there on Sunday morning
Stand up and sing about what it's like up there
They called it paradise, I don't know why
You call some place paradise, kiss it goodbye**
